*Report from Shanghai—Inspection of vessels—Smallpox.*

Acting Assistant Surgeon Ransom reports, July 5, as follows:

Week ended June 30, 1906. One original and 2 supplemental bills of health issued to 1 sailing vessel and 2 steamers. There were inspected 3 vessels, 264 crew, and 44 steerage passengers. The effects of 16 crew and 8 pieces of steerage baggage were disinfected; also the forecabin of 1 vessel. A vaccination certificate was issued to 1 passenger bound to the United States.

There were no emigration examinations made.

The weekly report of the municipal health officer shows among foreigners 1 new case of smallpox; among natives 1 death from smallpox.

No quarantinable diseases were reported from outposts.

## COSTA RICA.

*Report from Limon, fruit port.*

Acting Assistant Surgeon Goodman reports as follows:

Week ended July 28, 1906. Estimated population, 5,000; general sanitary condition of this port and the surrounding country during the week, good. The fumigation of the houses in the railroad village in which yellow fever was found in June, and from the vicinity of which the 2 cases were imported into Limon, seems to have been successful, as no more cases in or around that district have been reported. There is no evidence of any quarantinable disease in this port.

Bills of health were issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
